OBJECTIVE

Passionate Automation and Application Developer with 4+ years of professional experience in building automation solutions and web applications. A professional with working experience in RPA Tools like UiPath and Blue Prism, and web development with WAMP stack, looking forward to leveraging my expertise.

SUMMARY

- **RPA (Robotic Process Automation):** Experienced in building automation solutions end to end around business use cases based on SAP, Desktop & Web applications, and others.
- **UiPath:** Developed more than twenty processes as the primary developer. Experienced in building and managing UiPath Studio, Orchestrator and UiPath Robot.
- **Blue Prism:** Developed automation processes using Blue Prism and Object studio. Well versed with managing Blue Prism Work Queues and control room.
- **Web Development:** Experienced in building web applications using the WAMP stack and experienced in using JavaScript for the front end. Delivered and deployed 5+ web applications.
- **Scripting Languages:** Certified Microsoft Technology Associate 98-381 for Python Programming and experienced in creating Scripts and Macros using VB Scripting and VBA for enhancing the efficiency and accuracy of the workflows
- A strong and patient team player with good verbal and written communication skills and a curious individual passionate about programming and computer science.

SKILLS

RPA Tools	UiPath, Blue Prism (Certified in both)
Front-End Technologies	JavaScript (ES6), Vue.JS, HTML5, CSS3, Bootstrap 4, SASS
Back-End Technologies	PHP7
Databases	MySQL, MS-SQL, Oracle SQL
Version Control	GIT, GitHub
Frameworks	UiPath - RE Framework, PHP - CodeIgniter
Scripting Languages	Python Scripting - (Certified as: MTA 98 -381) C#,VBA and VB Scripting

PROFESSIONAL EXPERIENCE

KPMG in India

Application Developer, Pune

August 2019 – Present

Worked with 2 clients and on internal projects as well. Honed my skills on design, development, and critical positive thinking for creating automation solutions and web applications as well.

Automation with UiPath

- Created 10+ BOTs of medium and large complexity using Ui Path RPA tool single-handedly from design and development to deployment.
- Expert in handling and developing using UiPath Studio, UiPath Orchestrator and UiPath Robot.
- Contributed in creating more than 10 reusable activities to be used across the team.
- Created web applications using the WAMP stack for multiple clients.
- Worked with Databases like Oracle SQL, MySQL & MS SQL for CRUD operations in the above solutions
- Expertise in writing maintainable, documented, and object-oriented code.
- Designed and created the RPA workflow of the eAudIT BOT which is now live and accessible to KPMG employees
- Involved in all phases of development: Identification, Design, Development, and Implementation. Created PDD, ODD, SDD for the automaton
- Was involved in testing phase as well and in resolving the issues after the BOT went live.
- Managed error handling and logging at different levels for resolving bugs after the product is live.
- Also, created 2 console applications using Visual Studio and .NET Framework 4.7 as a middleware for few solutions. Have decent knowledge of C# programming language.

Web Development

- Created more than 5 applications using the WAMP stack and was the lead developer throughout all the phases.
- Took ahead and participated in all the phases of the SDLC processes like design, develop and deployment.
- Experience in writing the backend of the application with Core PHP and with framework like CodeIgniter.
- Experienced in writing fluid, dynamic and responsive front-end pages using Vanilla JavaScript, CSS.
- Also experienced in Component framework Vue.JS for writing Single Page Applications. Knowledge in using CSS framework like Bootstrap 4 and SASS.

Python & VB Scripting

- Designed and created several VBScript scripts to perform automation of ITACs and ITGCs on the SAP environment.
- Involved in all phases of development: Identification, Design, Development and Implementation.
- Currently under development and testing phase. Used C# to create a desktop application that functions as the handler for the VBScripts.
- Managed error handling and logging at different levels for resolving bugs after the product is live

IBM India Pvt. LTD

Application Developer, Pune

July 2016 – August 2019

- Created automation solutions using RPA technologies: Blue Prism and Ui Path to automate several use cases identified by the client.
- Deployed the solutions in Client Environment and executed all the go live activities.

- Worked extensively with UiPath Orchestrator and Blue Prism control room to handle multiple BOTs.
- Was involved in the design, development and deployment of all the above automation solutions
- Designed object studio VBO and Blue Prism process to automate windows applications, Java applications.
- Involved in Code reviews to check for efficiency and coding standards
- Designed VBOs for Lotus Notes application and created several functionalities like login, create new mail, send mail, read mail.
- Worked on Logging into websites, searching websites, submitting web forms, or updating records on a website.
- Worked on PDF automations using techniques like reading with OCR and region mode.

CERTIFICATIONS

Python	Microsoft Technology Associate 98-381
RPA - UiPath	RPA Developer Advanced Certification
RPA – Blue Prism	Blue Prism Accredited Developer AD01 Certification

EDUCATION

Bachelor of Engineering	Birla Institute of Technology , Mesra, 2016
Intermediate Education	Narayana Junior College, Vijayawada, 2012
Matriculation	Kendriya Vidyalaya, Vijayawada, 2010
